# 4 Technologies That Will Change Health Care In 2021

CLOUD DATABASE

Reduce workload and improve EHR systems in health care.

AI & MACHINE LEARNING

Wearable technology will provide data that can predict health trajectories.

TELEMEDICINE

Checklist system that will accurately diagnose without doctor visitation.

VIRTUAL REALITY

Reduce the knowledge gap by creating real-life simulations to apply knowledge.

Eisenhower Health is a leader in innovation to improve patient care for all health conditions. Search for opportunities to work at our world-class medical center on our Career page.
