# TIPS TO A SUCCESSFUL NURSING INTERVIEW

## DO YOUR RESEARCH

Learn about the organization, values and beliefs, and work culture.

## PRACTICE YOUR ANSWERS

Write your answers and practice them with a colleague to get used to interviews.

## DRESS FOR THE OCCASION

Depending on the position, sometimes well-pressed scrubs are more appropriate.

## HAVE A QUESTION READY

"What's the typical schedule like for a nurse working here?"

## BE YOURSELF

Smile and enjoy your time with the interviewer. Approach things from a positive point of view.

## DON'T SOCIAL MEDIA SEARCH

Don't look for your interviewer's socials to focus on common interests.

## DON'T WING IT

You'll most likely stall for time when answering and come across as under prepared.

## DON'T ROLL STRAIGHT OUT OF BED

Sweats may be acceptable down the line, but definitely not for a first impression.

## DON'T JUST LEAVE

Express interest in the hospital you're applying to. Ask about the culture, protocols, etc.

## DON'T USE NEGATIVE LANGUAGE

Avoid using words that have negative attributes to maintain a positive image.
